To Whom it May Concern,

Early County does not have a zoning ordinance.

In the **unincorporated** areas of Early County, land use and property line encroachments are regulated by setback regulations. These regulations are specific to the type of permitted activity (Building, MFG Home, MFG Home / Travel Trailer Park, Communications Tower, Solar Farm and Poultry Operation). Any references to property zones in tax records for land in the **unincorporated** areas of Early County are for taxation purposes only.

Please contact the specific jurisdiction for more information on permitting activity in an incorporated area (within city). Those cities are Arlington, Blakely, Damascus, and Jakin.

Should you have any questions pertaining to unincorporated Early County please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Phillip Law', is written over a light blue horizontal line.
